

Supplier RFP Response

Proposal: Orbit Digital

Executive Summary

Orbit Digital brings 20 years of industry experience and an unmatched portfolio of successful deployments.

Proposed Solution & Technical Fit

We offer a proven legacy-compatible solution. While the integration plan is somewhat vague and relies on older SOAP APIs, the core engine is battle-tested.

Implementation Plan & Timeline

Timeline is roughly 6-7 months. Milestones are high-level. Staffing includes veteran engineers with deep domain knowledge.

Commercial Value & Pricing

Total Cost: \$600,000.

Assumptions: Based on standard volume metrics. Medium pricing tier.

Security & Compliance

Legacy compliance standards met. Privacy controls are in place, though auditability requires manual log extraction.

Support & Experience

Extremely strong references from Fortune 500 companies. Support model is robust, backed by our extensive historical experience.
